Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 07 September 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

1. Claims 14-21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention. Election was made **without** traverse in the reply filed on 9-7-04.
2. It is requested that applicant cancel non-elected claims 14-21 in response to this action to facilitate the issue process if the application is ultimately allowed.
3. The abstract of the disclosure is objected to because it should be limited to a single paragraph. Correction is required. See MPEP § 608.01(b).
4. Claims 23-24, 31, and 33-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 23, "the lateral distance" in the last line lacks clear antecedent basis and could be written as –a lateral distance—for clarity in this regard as best understood. Additionally, lines 4-5 are slightly confusing, and "having" in line 4 could be replaced with –which has—to clarify the claim in this regard.

Re claim 31, "the vertical and horizontal directions" lacks clear antecedent basis, and "the" could be deleted from the term to clarify the claim in this regard.

Re claim 33, line 3 is somewhat confusing, and "one lid" could be replaced with –one of said lids—to clarify the claim in this regard.
5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3612

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 22, 25, 31, and 32, as best understood, are rejected under 35

U.S.C. 102(b) as being anticipated by Kemming '152.

Kemming teaches a truck box defining box body sections with attached lids 27, a cavity (see figure 3), and a removable insert 34+ as broadly claimed.

Re claim 25, at least elements 22, 25, and 29 define an interconnecting frame as broadly claimed. The insert is deemed positioned on the frame as broadly claimed.

Re claim 32, the body sections and insert are deemed to form an interference when connected as broadly claimed.

7. Claims 22, 25, 27, 31, and 32, as best understood, are rejected under 35

U.S.C. 102(b) as being anticipated by Bonstead et al '330.

Bonstead et al teaches a truck box defining box body sections (48, 50), attached lids 66, and a removable insert 18 positioned in a cavity as broadly claimed.

Re claim 25, lips 74 define a frame which interconnects the body sections (via the insert) as broadly claimed. The bolted insert is deemed positioned on the frame as broadly claimed.

Re claim 27, to the extent a rope etc. could be secured under shoulders 60 for aiding tiedown, such shoulders are deemed fairly readable on the tie-downs as broadly claimed.

Art Unit: 3612

Re claim 32, the body sections and insert are deemed to form an interference when connected as broadly claimed.

8. Claim 26 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

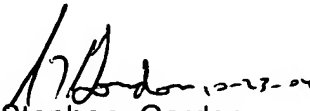

9. Claims 23-24 and 33-35 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note at least Burrows teaches a motorcycle wheel securement with attached tie-downs for a transport vehicle.
